

AMT Editorial Rules v2.4

Addendum 1

30 November 2018
 Approved for external information
 Document ID: DH-2781:2018

Introduction

This addendum shows the changes that have been made to the AMT Editorial Rules v2.4 published in October 2018.

Changes are sorted by chapter and show all changes with either red text for additional text or red text with a strikethrough for deleted text.

Effective date shows the release in which the rule was changed. The new or updated rule will be applied to any new content in AMT from this date onwards and where existing content requires changes as a consequence, this will be updated in phases.

Editorial Rules Addendum

4.6.2 TP details

Effective date: 30/11/18

Table 21: TP description

Sponsor details	No, except where a product has a generic name (that is, the name of the product is a substance name or an indication for treatment) the sponsor, manufacturer, house brand or combination pack trade details will also be included as part of the TP.	Amlodipine (Terry White Chemists) Ibuprofen (Herron) Krill Oil (Nature's Own) Acid and Heartburn Relief (GenRx) Cold Sore Fighter (Bioglan) Magmin (no sponsor is included as this is not a generic name) Evicel Thrombin
-----------------	--	--

E.1 Strength expression rules for specific medication forms

Effective date: 30/11/2018

Table 55: Examples of exceptions and associated rules for strength expressions

Liquid unit dose forms- e.g. large volume injections for electrolyte replacement,	For the Preferred Term, strength will be expressed as a percentage.- Note that for large volume parenteral	sodium chloride 0.9% (9 g/L) injection, bag
--	---	--

~~nutritional therapy, plasma
volume expander~~

~~preparations, the strength will be expressed as
the amount of ingredient in the total volume.~~

E.2.1 Strength representation for products containing potassium

Effective date: 30/11/2018

- The % strength will be dropped off for the potassium component in ~~large volume~~ parenteral products as no more than two strengths should be displayed. For example, potassium chloride 2.98 g (potassium 40 mmol)/L + sodium chloride 0.584% (5.84 g/L) injection, bag

E.3 Strength expression rules for specific substances

Effective date: 20181130

Table 1: Substances with specific strength representation requirements

retinol palmitate - topical

~~mg only units/g only~~

Publication date: 30 November 2018
