# National Clinical Terminology Service Document Library Release Note

23 July 2020   v2.21
Approved for external information
Document ID: DH-3236:2020

## Summary

### EP-3238:2020 NCTS – Document Library v2.36

The National Clinical Terminology Service (NCTS) document library contains documentation and other resources related to the understanding, use and implementation of the products and services provided on the NCTS website. It is updated on an as-needed basis, when new or updated resources become available, or when existing resources need to be withdrawn.

**New**

| | |
|---|---|
| *Terminology and Classifications Presentation v2.0* | This presentation was developed in collaboration with the Australian Institute of Health and Welfare (AIHW) and Independent Hospital Pricing Authority (IHPA) and provides an overview of commonly used code sets in health; SNOMED CT-AU features and main use cases; ICD-10-AM features and main use cases; International Classification of Diseases revision; and maps between SNOMED CT and ICD-10. |

**Updated**

| | |
